Mitchell **TruckEst**™

ACCELERATE YOUR ESTIMATING PROCESS

Mitchell **TruckEst**™ empowers you to generate professional, computerized estimates quickly and easily—helping you increase productivity and profitability while impressing customers and business partners at the same time.

With more trucks on the road than ever before, you need to have an accurate and efficient solution like TruckEst to help you eliminate errors, increase efficiency, and ultimately improve customer satisfaction. TruckEst software combines estimating functionality with accurate, reliable data from Mitchell—so it's simple for you to reference part descriptions, labor times, and refinishing times with the click of a mouse.
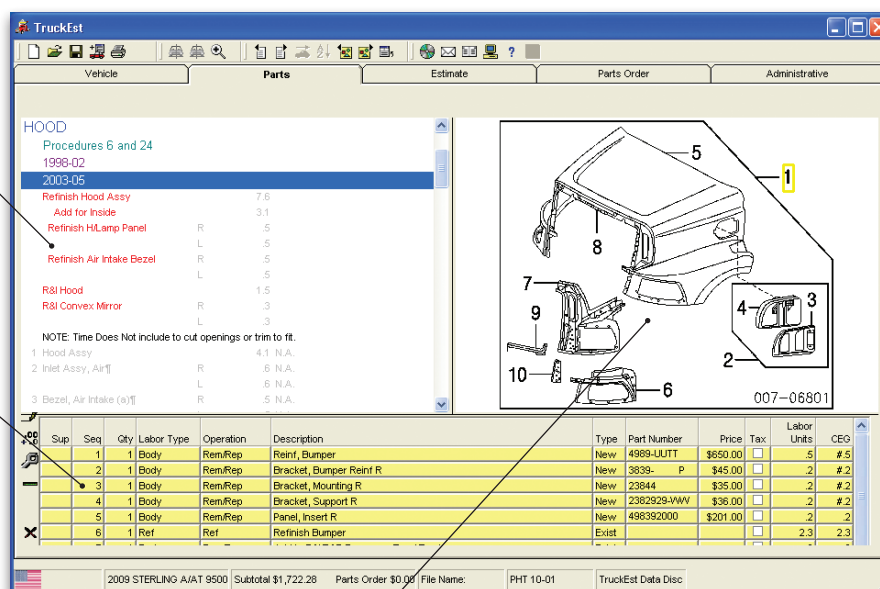

TruckEst empowers you with estimating capabilities like never before. Accuracy, speed, and ease-of-use features include:

• Access estimating data on over 40 manufacturers with more than 300 vehicle configurations so you never have to turn business away.

• Generate professional-looking estimates faster than writing by hand.

• Store and organize multiple vendors, parts and prices.

• Keep up-to-date with the latest data (with up to four updates per year).

• Easily install! Plus easy to learn even if you are not a computer expert.

At-a-Glance:
Inside TruckEst

Leading-Edge Features	Empowering Benefits
Create, save and export estimates, orders, worksheets, and reports	Streamlines and simplifies your estimate organization and repair documentation.
Store specific part numbers and prices with TruckEst's customizable database	A huge time-saver allowing you to easily refer to part numbers and prices.
Electronically store customer and vendor information in one place	Eliminates the need to keep separate customer and vendor databases and provides easy access to all of your important business contacts.
Store common operations in order to quickly add to future estimates through the macro feature	Saves common operations and valuable time since you won't need to start from scratch on every estimate.
Access industry standard procedure pages with the click of a mouse	Helps to eliminate errors and improve your estimate accuracy.
Email professional looking parts orders, estimates, and truck inspection reports	Impress your customers and your business partners with professional, timely communications.

What TruckEst Clients are Saying:

"The labor times found in TruckEst are most valuable to me. In fact, others have called me to get the information found in the product. Because I handle 10-15 estimates on heavy and medium trucks per month, writing estimates with TruckEst saves me about two hours' worth of work a day."

—Brent Heath, Patsy's Auto Body, Concord, New Hampshire

"TruckEst generates professional-looking reports that can easily be emailed to or printed out for customers. Also, the ability to store part prices for future use is excellent. It is a whole lot more convenient than hand-writing estimates."

—Paul Benjamine, Crown Insurance Appraisals, Spartanburg, South Carolina
