

Mitchell SmartAdvisor™ Claimant Dashboard™

VISUALIZE YOUR DATA TO GAIN PERFORMANCE INSIGHTS FOR ENHANCED DECISION-MAKING.

Business dashboards have become the essential tool for monitoring and improving performance. Mitchell's Claimant Dashboard provides advanced visualization of medical treatments and spend for a given claimant, broken down by providers. Now, you can quickly view the current financial and medical development of your claim so you can make better decisions towards the best possible outcome.

With so many claims to manage and bills to process, how do you gain a holistic view of each claimant's medical treatments and monies spent on multiple treating providers? Claimant Dashboard's graphical view makes it easy to visualize medical treatment patterns over a period time—which could be weekly, monthly, or it could span over multiple years. Total medical spend for each provider is also summarized to help you control medical costs.

QUICKLY RECOGNIZE THE BEST DIRECTIONS TO TAKE.

With the Claimant Dashboard, you now have a history of what services have been rendered, so you can look ahead and improve the direction of care for your claimants. Enhance your decision-making process with your ability to:

- Detect the need to adjust your reserves with closer examination of medical spend on each provider
- Identify trends and recognize patterns of performance, such as long delays or unusual patterns in treatments
- Escalate a claim for utilization review or case management to address outliers or exceptions
- Alert special investigation units for any indication of suspicious or potential abuse

(m)powered

The Path to Higher Quality Claims Management.

Claimant Dashboard leads you to a clearer path of managing a claim and the claimant's direction of care with known paths of previous medical treatments.

You can see at-a-glance below the key features and resulting benefits when using Claimant Dashboard.

Key Features of Claimant Dashboard

Leading-Edge Features	Empowering Benefits
Medical Treatments Grouped by Color-Coded Procedure Set	Easily view the transition of care from one set of procedures to another
Timeline View of Treatments	Quickly detect medical treatment patterns across weeks, months or years
List of Treating Providers & Medical Group	Identify all medical providers & groups treating the injured worker
Medical Spend by Provider	Examine total spend per provider & determine the need to adjust reserves
Date of Service Range by Provider	Recognize the duration of medical treatments rendered by provider

System Requirements: Internet Explorer version 9 or above, Mozilla Firefox, Google Chrome
