

Mitchell Provider Network Solution

A PROVIDER NETWORK SOLUTION LIKE NO OTHER

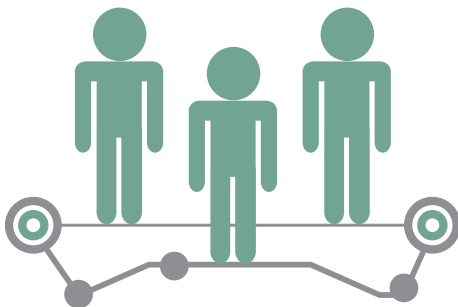

The Mitchell Provider Network Solution is one-of-a-kind because it's designed to be a customized, cost-saving solution for property & casualty insurers that want to extend benefits for their policyholders at reasonable rates. It's total optimization—three-fold:

- 1** **Increases your specialty provider networks' penetration**
to extend benefits to your policyholders and improve the customer experience.
- 2** **Provides customized tiering recommendations**
using our industry expertise, we recommend the most beneficial network tiering by state. With this automated network solution, you can maximize your Net Yield.
- 3** **Brings cost savings to your out-of-network bill review negotiations**
by leveraging our Mitchell NHQ network solutions to deliver additional savings opportunities with 50-70% of your out-of-network providers.

STOP OVERPAYING. START NETWORKING.

Without an effective provider network, you could be missing opportunities to expand coverage for your customers. Incorporating the Mitchell Provider Network Solution can customize optimization into your bill review process with automated tiering, making it easier for your adjusters to extend benefits.

What makes it the most effective partner network is that we use our expertise to analyze your unique book of business and recommend an optimized network tiering by state. Plus, Mitchell Decision Point® has access to the broadest set of specialty provider networks to increase customer satisfaction.

EXPAND YOUR OPPORTUNITIES BEYOND YOUR NETWORK.

Mitchell NHQ helps maximize your medical cost savings opportunity by working with the 50-70% of out-of-network providers. We average a 30-40% success rate in collaborating with these providers on prompt-pay discounts, adding even greater savings on top of provider network tiering.

Use our expertise to deliver better results.
