What Sets Mitchell Cloud Estimating TruckMax Apart?

With aftermarket parts data and vendor sourcing integrated directly into Mitchell Cloud Estimating TruckMax, writing an estimate for commercial trucks has never been easier. Get access to templates, reference sheets, ADAS information and customizable rules to ensure every estimate meets your standards.

The cloud-based solution also provides the flexibility to author estimates at your shop or on-site. Additionally, when combined with our photo-based appraisal technology TruckMax allows insurers to complete appraisals virtually.

Designed Specifically for Commercial Trucks

Mitchell Cloud Estimating TruckMax simplifies the estimating process for collision-damaged light-, medium- and heavy-duty trucks.

Interactive Graphics

Click into exploded diagrams to view additional part details

Aftermarket Parts

Access parts data from top suppliers

Detailed Labor Hours

Estimate repair time with objectively authored labor hours

Intuitive Calculations

Receive auto-included estimate lines with appropriate labor times

VIN Decode

Seamlessly access year-, make- and model-specific data for popular trucks

Photo Upload

Save photos for reference and attach to the completed estimate

Growing Database

Stay up-to-date with truck and parts information added monthly

Automatic Updates

Obtain software updates automatically with our cloud-based solution
