Estimating Made Easy

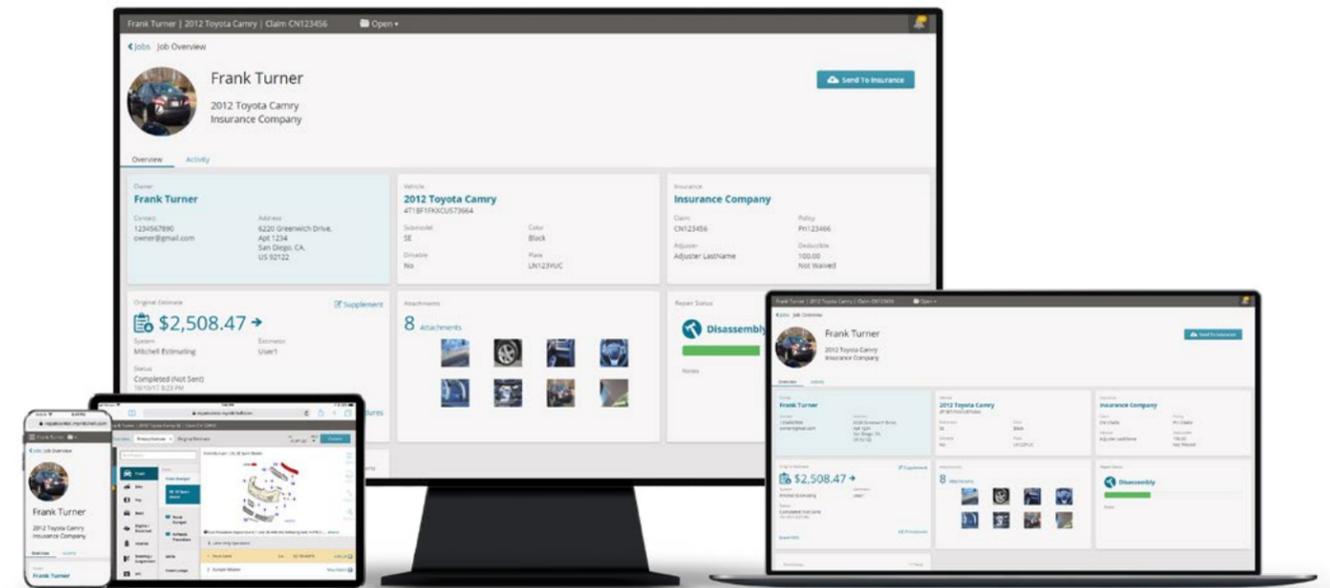

Mitchell Cloud™
Estimating

Mitchell Cloud Estimating has revolutionized the appraisal process—providing a simple-to-use, web-based interface and seamless access to OEM repair procedures from your tablet, laptop or smartphone.

Let Mitchell Cloud Estimating simplify the appraisal process for your collision repair facility so you can focus on proper, safe vehicle repairs.

Backed by 75 years of collision repair expertise, Mitchell Cloud Estimating helps you:

- Increase Efficiency With Templates to Guide Estimators
- Decrease Cycle Time by Placing Critical Information at Your Fingertips
- Boost Customer Satisfaction with Fewer Supplements

Access all the tools you need—anytime, anywhere and from any device.

Write Estimates On the Go

Available on any Internet-enabled device, Mitchell Cloud Estimating lets you complete appraisals from the claimant's house, the shop floor or your office. Since it's web-based, your work is saved automatically. Plus, you choose the browser and EMS or BMS standard.

Review Integrated Repair Procedures

[Integrated Repair Procedures](#)—powered by [Mitchell TechAdvisor](#)—automatically display the relevant OEM repair information. Having this available helps ensure estimate accuracy and proper, safe repair. You can also view your [Mitchell Diagnostic](#) scans from within the estimate.

Perform Appraisals for Specialty Vehicles

Mitchell Cloud Estimating supports motorcycle, ATV and RUV appraisals. This specialty vehicle data—available through the [Integrated Repair Procedures](#) and [Mitchell TechAdvisor](#)—includes P-pages and OEM documents that can be easily accessed while writing the estimate.

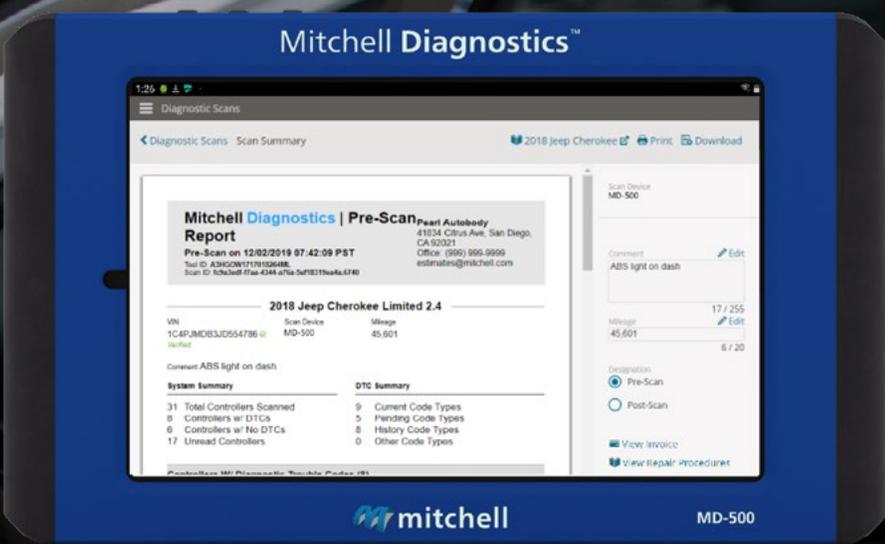

Receive Automatic Software Updates

You'll always have the latest product features—without having to wait or install the software yourself. This saves significant time and allows you and your estimators to leverage the most up-to-date repair data.

Taking Estimating a Step Further

Mitchell Cloud Estimating seamlessly integrates with Mitchell Diagnostics' new MD-500 device, a groundbreaking new solution that not only lets you scan the vehicle, but also gives you the power to write estimates, access in-line repair procedures and diagnostic scans from a single device.
