Michele Hibbert

Senior Vice President, Regulatory Compliance Management

Michele Hibbert is senior vice president of regulatory compliance management for the Casualty Solutions Group. Michele’s responsibilities include managing the health information management, regulatory compliance, litigation support, educational services and claims performance consulting teams within the Casualty Solutions Group. Prior to working at Enlyte, Michele spent 10 years working with inpatient and outpatient medical billing and reimbursement on the provider side, working at four different, large inpatient facilities as a coding and reimbursement manager. She spent 10 years as president of GRG Associates, working with outpatient providers consulting on proper coding and reimbursement for outpatient medical offices. Michele also worked with the National Academy of Science as chief nosologist facilitating major studies for congress to enable veteran benefits. For over 30 years, Michele’s focus has been working with major casualty insurers in implementing rules committees, quality assurance, risk management, compliance programs and review processes necessary in delivering objective bill review systems in the auto and workers' compensation industries. Michele is a Certified Clinical Coding Specialist (CCS-P), an Officer of Healthcare Compliance (OHCC) and a member of the American Health Information Management Association (AHIMA) and American Institute of Healthcare Compliance. Michele has authored many articles on insurance fraud, analytics, training, claims processing and ICD-10 implementations.
