Mitchell Brings Cloud Estimating to the Canadian Market

October 5, 2020
3 MIN READ

SAN DIEGO, CA—Mitchell, a leading provider of technology, connectivity and information solutions to the [Property & Casualty \(P&C\)](#) claims and [Collision Repair](#) industries, today announced the availability of [Mitchell Cloud Estimating](#) in Canada. Carriers and collision repairers can use the cloud-based application to write estimates from anywhere and from any Internet-enabled Microsoft Windows, Apple iOS or Google Android device—including their smartphone, tablet or laptop.

To help ensure appraisal accuracy and the delivery of proper, safe vehicle repairs, Mitchell Cloud Estimating also provides seamless access to integrated [OEM repair procedures](#) as the estimate is developed, reducing research time. The solution operates within [Mitchell's Connect platform](#) where vehicle images and scans from [Mitchell Diagnostics](#) are available in the card-based user interface. Additionally, the scalable, cloud-based architecture allows insurers and collision repairers to quickly deploy Mitchell Cloud Estimating across their organizations, simplifying the transition to a new appraisal system, lowering development and maintenance costs, and providing immediate access to the latest product features.

First delivered to the U.S. market, Mitchell Cloud Estimating now supports Canadian:

- Parts and pricing
- Language localization
- Tax configurations
- Currency
- Provinces and postal codes

"Mitchell has always been committed to providing an open, cloud-based platform that allows our customers to work more efficiently while remaining focused on proper and safe repair," said Debbie Day, Executive Vice President and General Manager of Mitchell's Auto Physical Damage division. "Mitchell Cloud Estimating and its availability across North America is a perfect example of how we've delivered on that commitment and met the goals we set out to achieve with Program Freedom and our open ecosystem of cloud solutions."

Mitchell Cloud Estimating provides a choice of EMS or BMS standards for data sharing as well as offers VIN scanning, photo integration and the ability to write multiple appraisals at once. With the company's 75 years of industry expertise and data, the cloud-based system also integrates with the [Mitchell Intelligent Estimating](#)

[solution](#), which automates the appraisal process by leveraging artificial intelligence to transform images of damaged vehicles into component-level estimate lines.

More information can be found on the [Mitchell website](#). To receive collision repair and property casualty updates and perspectives, follow Mitchell on Twitter [@MitchellClaims](#) and [@MitchellRepair](#).

About Mitchell International

Headquartered in San Diego, California, Mitchell International, Inc. delivers smart technology solutions that simplify and accelerate claims handling and repair processes, driving more accurate, consistent and cost-effective resolutions. Mitchell integrates deep industry expertise into its workflow solutions, providing unparalleled access to data, advanced analytics and decision support tools. Mitchell's comprehensive solution portfolio and robust SaaS infrastructure connects its customers in ways that enable tens of millions of electronic transactions to be processed each month for more than 300 insurance companies, over 30,000 collision repair facilities and countless other Property & Casualty industry supply partners across the Americas and Europe.
