Colleen West

Senior Product Manager

Colleen West is a senior product manager at Enlyte, leading the design and delivery of client- and provider-facing portals. With three decades of experience at Enlyte and Coventry, she has developed a deep understanding of the organization's evolution and the complex needs of both clients and providers. In her current role, Colleen bridges multiple user groups to create intuitive, scalable solutions that drive engagement and operational efficiency, leveraging her extensive background to ensure platforms deliver lasting value.
